Hi Mike:-

Tks for the vy fine chat, you have not only a good signal but also a good fist as well, and it is a pleasure to talk with you, most young fellows your age want to qrt as soon as I tell them my age, Hi. As you were operating the Club station, I will inclose a photo of myself and station, the reason for the odd pose, is that I took my own picture, using the switch on the mike to set off the photo-flash bulbs and when one knows when the flash is comming it is hard to look natural.
